PROFESSIONAL SUMMARY

Senior PHP Developer with 10.5+ years of experience and deep specialisation in Craft CMS (versions 3–5). Hands-on experience delivering Craft 3 → 4 and 4 → 5 upgrades, Matrix field refactoring, plugin migration, and Twig template modernisation across 50+ production websites, including a multi-school Craft CMS platform serving schools across Australia and the UK. Strong complementary expertise in WordPress (custom themes, plugins, WooCommerce) and Laravel (REST APIs, business applications). Proven team lead — managing 4–6 developers, client communication, and end-to-end delivery.

TECHNICAL SKILLS

Craft CMS	Craft CMS 3 / 4 / 5, Twig, Matrix fields, Freeform, CKEditor 5, project config, plugin development, multi-site setups
WordPress	Custom theme & plugin development, WooCommerce, ACF, custom post types, REST API integrations
Laravel / PHP	Laravel, CodeIgniter, Core PHP, RESTful API design, queue jobs, DomPDF
E-Commerce	Magento 2 — custom modules, payment gateways, performance optimisation
Frontend	HTML5, CSS3, JavaScript, jQuery, AJAX, responsive/pixel-perfect builds
Database	MySQL — schema design, indexing, query optimisation
Cloud & DevOps	AWS S3, CloudFront CDN, Git, staging/production release workflows, image optimisation (WebP), page-speed tuning
APIs	Google API, Facebook API, Twilio, WhatsApp Cloud API, payment processors

WORK EXPERIENCE

Sr. PHP Web Developer — Abbacus Technologies

Jan 2023 – Present · Ahmedabad

- **Craft CMS Platform:** Led Craft CMS development and maintenance for 50+ client websites, including a multi-school Craft CMS platform serving schools across Australia — Brisbane Grammar, St Aidan's Girls School, Yarra Valley Grammar (main + enrolment site), Catherine McAuley College, Geelong High, CRC Caroline Springs, St Ignatius, Caroline Chisholm College, and many more.
- **Craft Upgrades:** Delivered Craft CMS 3 → 4 and 4 → 5 upgrades end-to-end: Twig template migration, Matrix block refactoring, block-type handle updates, null-safety fixes, plugin compatibility audits, and project-config management.
- **Incident Recovery:** Handled a critical project-config rebuild incident affecting 35 production sites — led data reconciliation and recovery with zero permanent data loss.
- Managed content and image sync (Career Bytes module) between Craft 4 and Craft 5 environments for Yarra Valley Grammar.
- Configured Freeform email notifications, CKEditor 5, and custom gradient overlay systems across school sites.
- Improved page speed across the platform using WebP image transforms, lazy loading, the Minify plugin, and S3 + CloudFront CDN asset delivery.
- **WordPress:** Developed fully custom WordPress themes and plugins from scratch — custom post types, shortcodes, admin settings panels, WooCommerce extensions, and third-party API integrations.
- **Laravel & Magento:** Delivered a Laravel-based Flat Maintenance Management System with PDF receipt generation and WhatsApp/Twilio notifications; built and customised Magento 2 storefronts.
- **Leadership:** Managed client communication (UK & Australia) via email/chat and coordinated task distribution across a team of 4–6 junior developers.

Sr. PHP Web Developer — Metizsoft Solutions Pvt Ltd

Jul 2020 – Jan 2023

- Built and maintained enterprise-grade Laravel REST API systems for mobile and web clients.
- Developed Magento 2 e-commerce solutions — custom modules, product management, payment integrations.
- Collaborated on WordPress builds with WooCommerce and custom theme development; mentored junior developers and conducted code reviews.

Sr. PHP Web Developer — NyuSoft Solutions LLP

Sep 2016 – Apr 2020

- Designed and developed CodeIgniter and Laravel applications for travel, health, and technology clients.

- Built scalable MySQL schemas, optimised queries for high-traffic applications, and integrated third-party REST APIs (Google Maps, payment processors, social platforms).

Jr. PHP Developer — Webcluse Infosys

Jan 2016 – Jun 2016

- Developed core PHP modules and assisted in WordPress website builds and customisations.

Jr. PHP Developer — Innovatewebtec

Jul 2015 – Dec 2015

- Assisted in building PHP-based web applications and gained foundational web development experience.
